What We Do

Work Collaboratively

The basis for our success—past, present, and future—is our ability to work with our foundation partners and forge ad hoc partnerships when appropriate. Whether it’s a project or an issue, when we bring together stakeholders and decision-makers, we can work both quickly and more efficiently in terms of seeking the best solutions that will help promote bicycling and further enhance the character of the city.

Focus on the Five E’s

The League of American Bicyclists rates states, communities, businesses, and universities on “bicycle-friendliness” according to five criteria. We focus on these same criteria as a means of working toward recognizable and documentable improvements for the city of Newark.

- Engineering
- Education
- Encouragement
- Enforcement
- Evaluation

Our Objectives

BikeNewark strives to:

1. make biking and walking central to Newark’s culture.
2. build a movement in Newark for better biking and walking.
3. expand safe and connected bike and walk infrastructure.
4. educate community members in the safe and legal operation of bicycles.
5. make Newark the best small city for biking in the Mid-Atlantic Region.
