BikeNewark is a partnership of interested cyclists and organizations working to improve bicycling in Newark, Delaware.

Our Mission

BikeNewark exists to improve bicycling in Newark, Delaware, by working with partner organizations on five critical parameters—engineering, education, encouragement, equity, and evaluation—for the overall benefit of people who bicycle and utilize multimodal transportation in the city as a whole.

What We Do

Work Collaboratively

The basis for our success—past, present, and future—is our ability to work with our foundation partners and forge ad hoc partnerships when appropriate. Whether it’s a project or an issue, when we bring together stakeholders and decision-makers, we can work both quickly and more efficiently in terms of seeking the best solutions that will help promote bicycling and further enhance the character of the city.

Focus on Five E’s

The League of American Bicyclists rates states, communities, businesses, and universities on “bicycle-friendliness” according to five criteria. We focus on these same criteria as a means of working toward recognizable and documentable improvements for the city of Newark.

- Engineering
- Education
- Encouragement
- Equity
- Evaluation
